APPLICAZIONI NUOVA CUPRA FORMENTOR

Formentor 2.0 TDI (110KW - 150HP) Mot. DTTA 03/21->

OL2210E

CUPRA FORMENTOR (KM7)

Cupra Formentor is a four and a half meter long SUV coupe. The width is sustained and contributes to the sporty image of the model, such as the height just over one and a half meters. Roominess and trunk are good thanks to the generous wheelbase. The design of the Cupra Formentor is made up of rather angular lines also underlined by the deep ribs on the sides and bonnet. The front view is characterized by the large hexagonal design grille and thin LED headlights, while the bumper has various air intakes that give the whole great dynamism.
